1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Brian Steinberger on 8/24/04.

After entry of the After Final amendment of 7/30/04, amend the claims as follows:

Cancel claims 16, 23 & 30.

In claim 1, last line, before the period insert --and the junction is selected from one of a ball-shaped portion, and a point shaped configuration portion--.

In claims 17, 24 & 31, lines 1, change "the" to --said sensor is a thermocouple with a--; and in lines 2, replace "providing step including: at least" with --of--.

2. The following is an examiner's statement of reasons for allowance: The above amendment corrects the out standing issues as discussed in the 8/17/04 advisory action. Update of the search did not find any closer references, however Majumdar et al (5,838,005) and Kobayashi (JP 2000205969A) are of interest to the state of the art, showing FIB used in milling or drilling operations in the formation of thermocouples.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
